

# Model JB (type I, type II)-series Load cell Junction Boxes

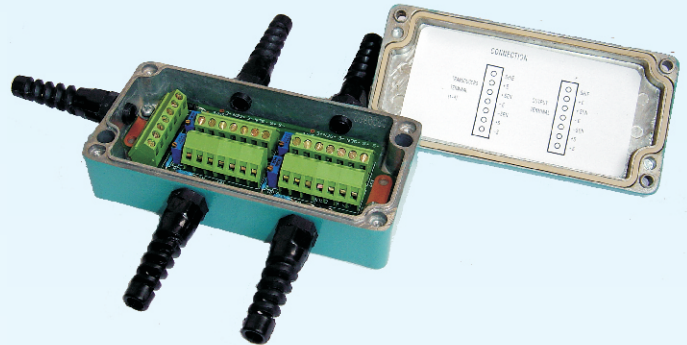

## Features:

- Aluminum crust with plastic covered, to select special good and durable earing tie-in.
- Adopting high precision and low shift resistance and capacitors to confirm the operating precision and stability of system.
- Special separate tie-in for load cell cable and signal cable to ensure the connecting reliability.

Dimension: 250 x 80 x 57 mm  
for 2, 3, 4, 6, 8 lines

JB (type I)-2 for 2 lines  
JB (type I)-3 for 3 lines  
JB (type I)-4 for 4 lines  
JB (type I)-6 for 6 lines  
JB (type I)-8 for 8 lines

Dimension: 135 x 65 x 38 mm  
for 2, 3, 4 lines

JB (type II)-2 for 2 lines  
JB (type II)-3 for 3 lines  
JB (type II)-4 for 4 lines

## Specifications:

small dimensions and light weights  
easy assembling and adjusting  
all sealed for anti- water and humidity  
working temperature: -40 ~ +85C
