

Industrial Pressure Transducers

H H H $\checkmark \pm 0.25\%$ FS static accuracy ($\pm 0.1\%$ FS possible as an option)

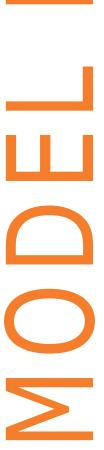

✓ Compact, rugged, all-welded 316 stainless steel construction (No O-ring)

✓ Reliable (lifetime in millions of cycles), high-performance transducers

✓ MEMS technology for superior linearity and low hysteresis

√ Fully tested, fully compensated, calibrated and serialized

✓ Ranges from 300 to 3,000 psi

Model PT1H

Industrial Pressure Transducers

Description

Senzors' model PT1H is a compact rugged pressure transducer that utilizes the latest leading-edge technologies to measure pressure. With its excellent stability and proven reliability the PT1H provides unequaled performance and is designed for any application that requires a medium to high pressure measurement. Its modular design makes it a general purpose industrial pressure transducer that can serve as the basis for a unique custom solution without sacrificing price and high performance.

The sensing element is a solid-state piezoresistive silicon die. This technology is based on a principle that results in excellent linearity, increased long-term stability and reliability and virtually no hysteresis. The silicon strain gage is fitted into a 316 stainless steel package and is completely isolated from the media. There are no internal O-rings or elastomers to contain the media and to contribute to instabilities or drifts.

The sensor signal is amplified by a state-of-the-art ASIC-based electronics providing a high-level output from an unregulated voltage supply. The ASIC enables enhanced accuracy, stability and reliability while reducing the transducer's size. Coupled with MEMS technology, the ASIC technology also enables Senzors to offer almost any output over any pressure range. Each unit is fully tested compensated and calibrated for pressure and temperature. Each transducer is shipped with a traceable calibration card.

The electronics is packaged in an hermetically-sealed all-welded 316 stainless steel housing enabling the PT1H to be immersed in water or pressure washed without internal leakage. This design makes the PT1H ideal for pressure measurements that can involve wet, corrosive or sterile media in the most severe environments.

Applications

Pressure Instrumentation

Aircrafts / Avionics

Smart valves

Pumps / Compressors

Refrigeration / Air Conditioning / HVAC

Hydraulic & Pneumatic Systems

Industrial Controls

Biomedical instruments / Medical Equipment

Engine Monitoring/Control/Testing

Hydraulic Presses

Construction, Agriculture, On/Off-Road Equipment

Vehicle Brake Systems

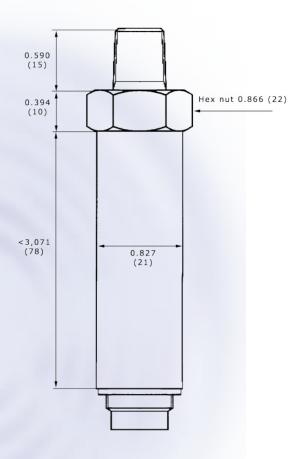

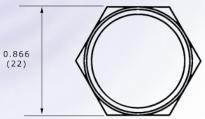

Model PT1H

Industrial Pressure Transducers

Dimensions

Dimensions below are in inches and (mm). Tolerance on diameter: -0.000"/-0.0020" (-0.00mm/-0.05mm)

| Specifications | |
|------------------|-------------------------------|
| Pressure Ranges | 0-300 psi through 0-3,000 psi |
| Type of pressure | Absolute, Sealed, Compound |

| Performances | |
|--|--|
| Static Accuracy (linearity, hysteresis, repeatability and calibration) | ± 0.25%FS (B.F.S.L.) ± 0.1%FS (B.F.S.L.) optional |
| Temperature error | ± 0.01%FS/°F |
| Long term stability | ± 0.2%FS per annum |
| Response time (-3dB) | < 1 ms |
| Resolution | infinite (0.02%FS practical mini- mum) |
| Fatigue life | > 100 million cycles |

| Environmental characteristics | |
|--------------------------------------|------------------------|
| Operating temperature (process) | -40°C to +125°C |
| Ambient temperature | -40°C to +80°C |
| Random vibration (50-2000Hz) | 20G |
| Shock | 100G, 11 ms, half-sine |
| Drop (any axis) | 1.5 m |

| Electrical characteristics | | | | | | | | |
|----------------------------|--------------------|-------------|--------------|-------------|--|--|--|--|
| Supply | 5 to 28 VDC | 8 to 28 VDC | 13 to 28 VDC | 8 to 28 VDC | | | | |
| Output | 0 to 1 VDC | 0 to 5 VDC | 0 to 10 VDC | 4 to 20 mA | | | | |
| Load | > 5 kΩ | > 5 kΩ | > 5 kΩ | < 1 kΩ | | | | |
| Current draw | < 3 mA | < 3 mA | < 3 mA | < 20 mA | | | | |
| Insulation | > 100 MΩ at 50 VDC | | | | | | | |

| Physical characteristics | |
|---------------------------------------|----------------------|
| Proof pressure | 1.5x |
| Burst pressure (pressure containment) | 5,000 psi |
| Wetted parts | 316L Stainless Steel |
| Weight | ≈ 4.3 oz. (120 g) |
